NEW NOBO PRODUCTS (2014/15)

NEW FOR 2014/15 Season

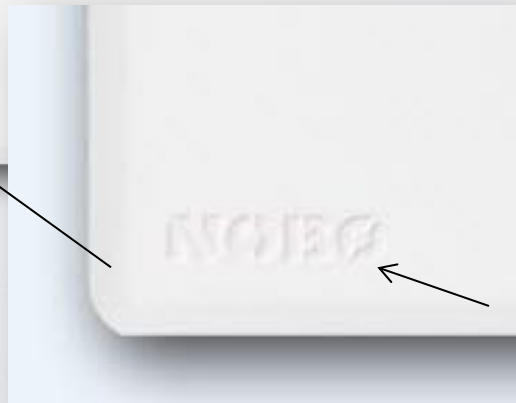

NTE4S TOP OUTLET NOBO CONVECTOR HEATER

- NOBO top outlet convector heater with thermostat control **ON TOP** of heater instead of on side of heater - to replace E4E (BALI)

The NEW NOBO NTE4S is setting a new standard in the market for heating and comfort. Nobo has focused on developing a product that meets the highest requirements for functionality, quality, safety and **ecoDesign**. With an industry-leading precision thermostat and standby power consumption under 0.5 watts, this product not only provides increased heating comfort for the individual, but also contributes to the reduction of energy consumption for the common good. As always, every Nobo heater is produced in Norway with your typical elegant and simple Scandinavian design.

SHORTER WIDTH - 2000W HEATER

Article #	Description
80440905	NTE4S 05 500W 230-240V EU E
80440907	NTE4S 07 750W 230-240V EU E
80440910	NTE4S 10 1000W 230-240V EU E
80440912	NTE4S 12 1250W 230-240V EU E
80440915	NTE4S 15 1500W 230-240V EU E
80440920	NTE4S 20 2000W 230-240V EU E

Size	Dimensions
500W	400mm x 525mm x 55mm
750W	400mm x 625mm x 55mm
1000W	400mm x 725mm x 55mm
1250W	400mm x 925mm x 55mm
1500W	400mm x 1025mm x 55mm
2000W	400mm x <u>1125mm</u> x 55mm

NEW and Improved Heater design

Switch and control unit on top

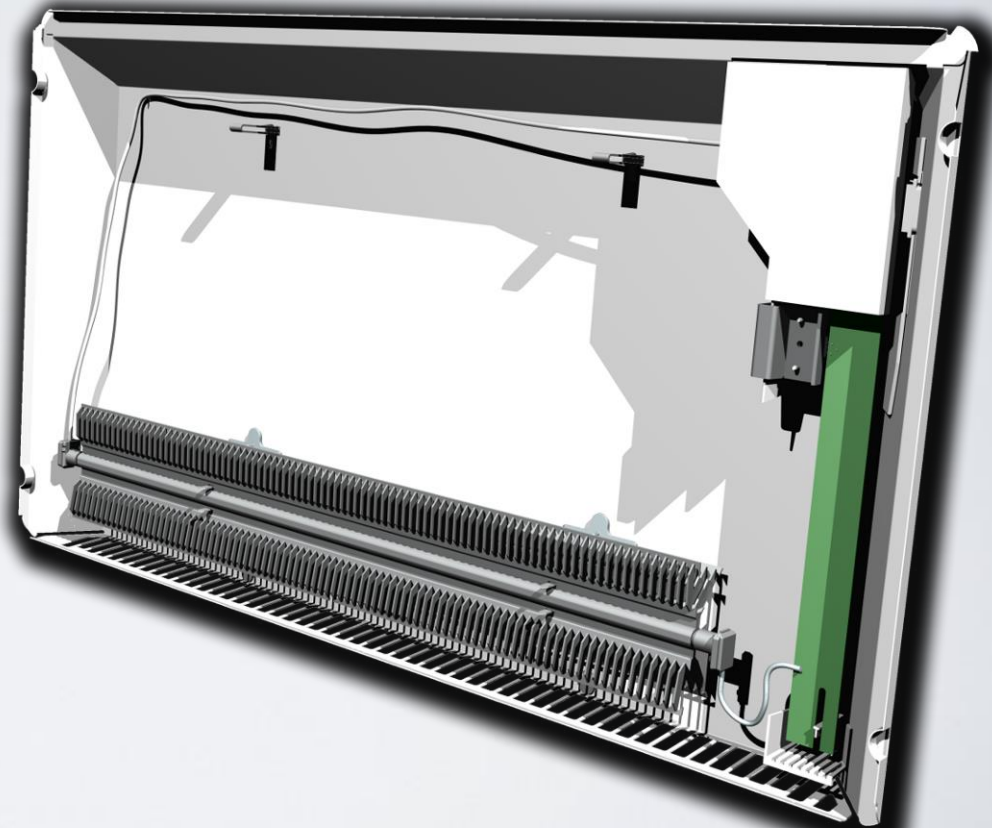

NEW solid back panel with LESS visible holes and plastic details

Wall frame and feet continue with same design

NEW AND IMPROVED HEATER

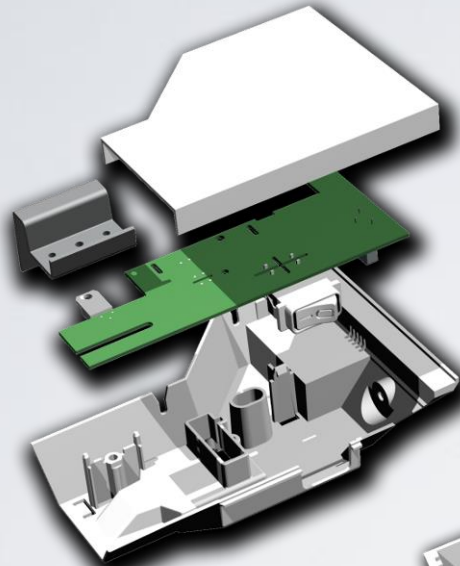

Internal parts with common design:

- Element with brackets with same reliable design as today
- Simplified wiring
- New and improved Regulator with significantly lower standby power consumption (save money)

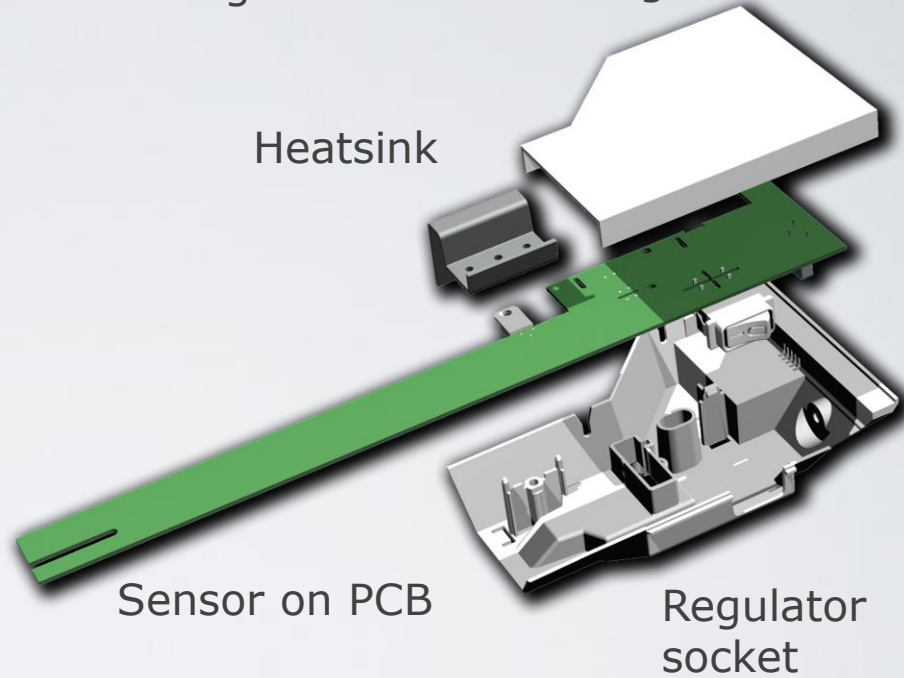

NEW AND IMPROVED HEATER (REGULATOR)

20cm high heater

40 high heater

Regulator cover

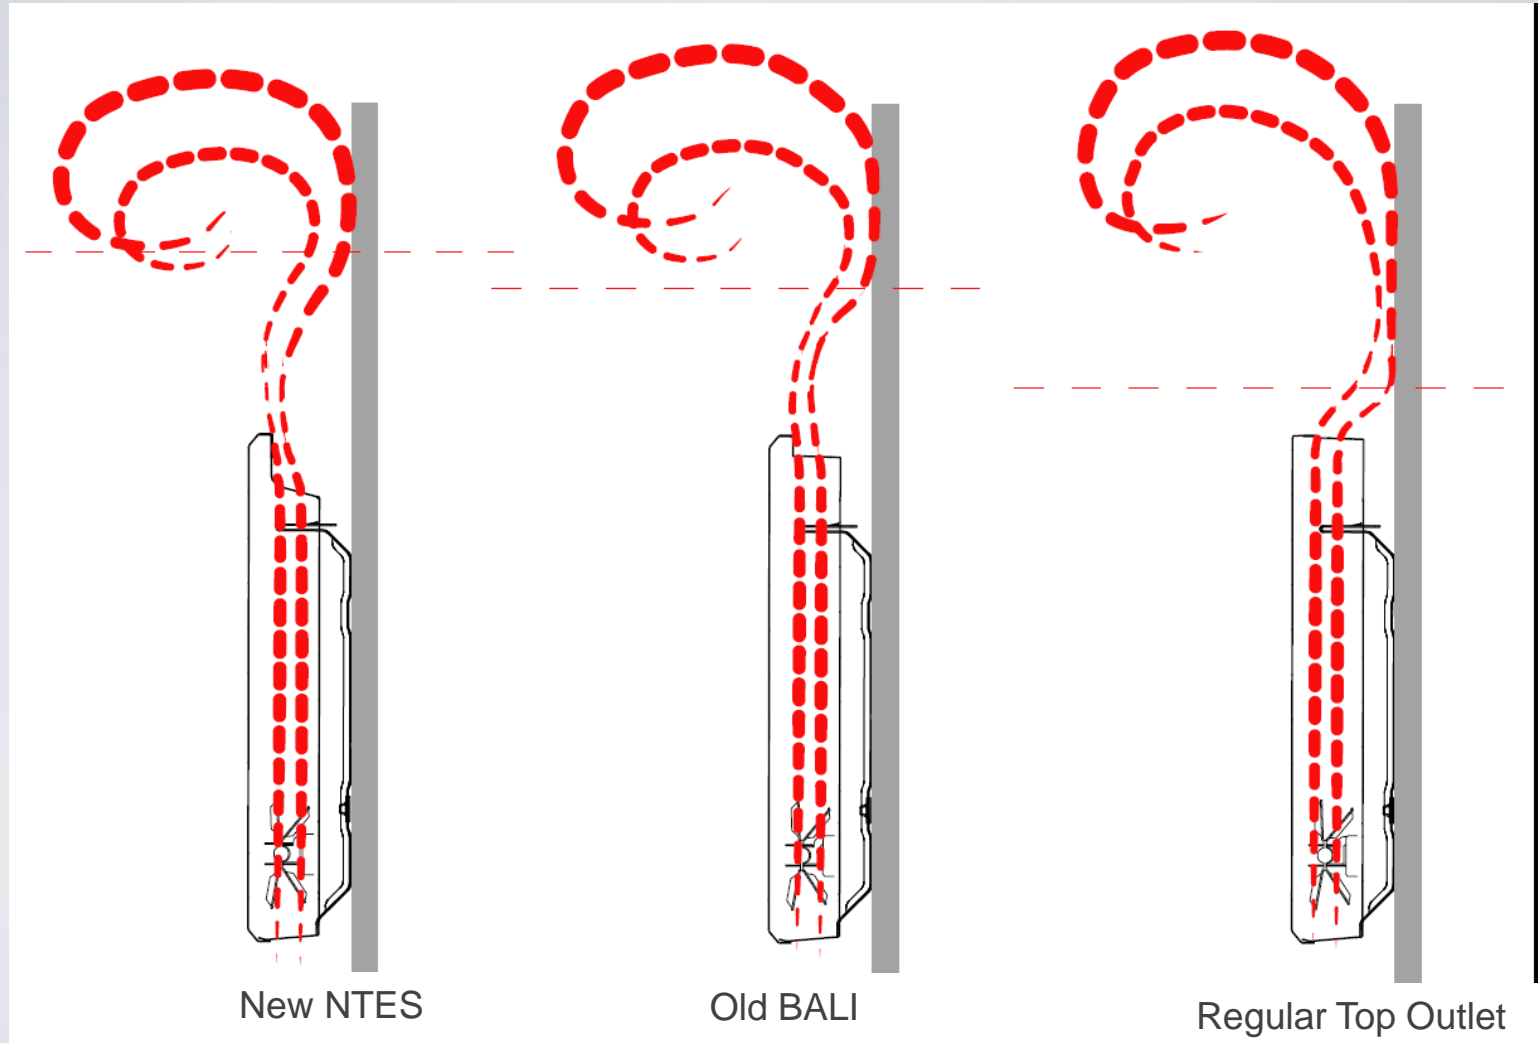

Heatsink

Sensor on PCB

Regulator socket

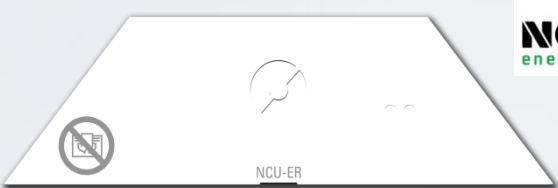

EVEN GREATER Precision in Thermostat Accuracy
Provides stable indoor temperature during unstable outdoor temperatures

NOBO – New improved Top Air outlet

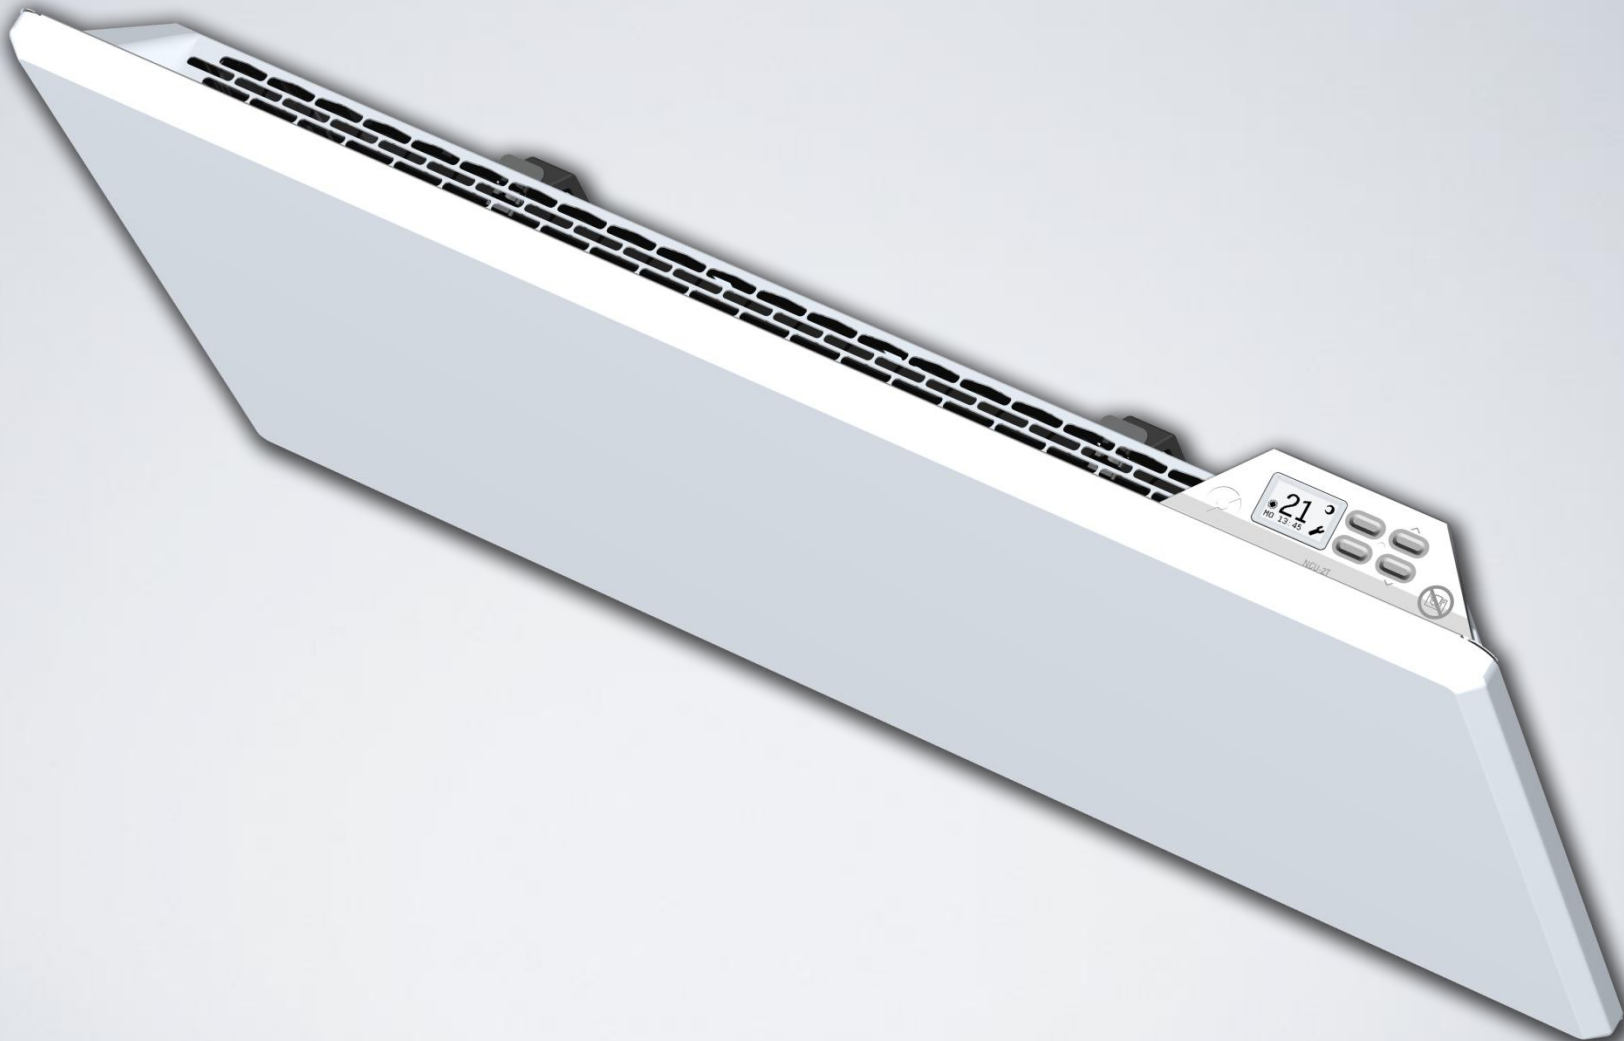

Reduce the risk of potential stains on wall above heater

NEW NOBO CONTROL UNITS

TECHNOLOGY ADVANCES

«Setting a new standard
in electrical heating»

Most precise temperature regulation: $< 0,1 \text{ }^\circ\text{C}$

No thermostat drifting ($0,1 \text{ }^\circ\text{C}$ when temperature drops)

Lowest Standby effect: $< 0,5 \text{ W}$

*EU commission regulation: technologies yielding improved energy efficiency for networked **standby**, leading to estimated **energy savings of 49 TWh** in 2025, compared to a business- as-usual scenario.*

NEW NOBO SALES STORY

«Ecodesign at a new level»

Main selling points

NOBO

Ecodesign at a new level!

Unrivaled thermostat technology.
- improved comfort, for you.

Stand-by effect < 0.5 Watt.
- improved energy efficiency,
for the environment.

NOBØ Energy Control compatible.
- for the environment,
and your household economy.

SUMMARY OF BENEFITS AND IMPROVEMENTS NEW NOBO HEATER

IMPROVEMENTS

- Control Units and Switch on Top of Heater
- EVEN BETTER Air Flow
- EVEN BETTER temperature regulation (SAVE \$) ecoDesign
- EVEN LOWER standby power consumption (SAVE \$) ecoDesign
 - Industry-leading standby power consumption < 0.5 watts
- NOBO Brand displayed on Front of Heater
- Smooth Flat White Surface
- New packaging
- Smaller Width – 2000W Top Outlet heater

SAME GREAT QUALITY AND BENEFITS AS BEFORE

- QUALITY, SAFETY, DESIGN, FUNCTIONALITY!!!
- SAFE Low Surface Temperature
- Portable (with wheels)
- Glass Front Option
- Easy mounting and installation

THE NOBO ADVANTAGE

*Nobo heaters are arguably the BEST PORTABLE and WALL-MOUNTED electric convector heaters in the market with respect to **quality, safety, design and functionality!***

- SAFETY FIRST!!!
- DESIGN AND MADE IN NORWAY
- LIFETIME INVESTMENT
- PRECISE TEMPERATURES
- TIMELESS DESIGN
- INTELLIGENT HEATERS
- NOBO ENERGY CONTROL
- PORTABILITY
- PREMIUM BRAND
